

STONELEIGH 2006

Esprit Springs and Dampers

Lotus is pleased to announce that a comprehensive development programme between Lotus, Bilstein and Eibach, has resulted in a rationalised range of road springs and dampers now being available for Esprit models from 1985 onwards. The new Bilstein dampers are supplied only in axle pairs, and are complete with eye bushes, removable lower spring seats and spindle dust cover.

It is recommended that for optimum dynamic performance and balance, the new dampers are fitted in complete vehicle sets. The spring seats supplied with the dampers are tailored to the new Eibach spring internal diameter of 81mm. If the original 76mm i/d rear springs are to be fitted on the new dampers, new 76mm seats may be ordered in addition, under part number LOTAC05449.

Notes:

- All dampers and springs are supplied in pairs.
- Good quality spring compressor clamps are required for spring/damper assembly.
- Recommended to fit as complete vehicle set.
- If retaining old rear springs, order in addition modified spring lower seat LOTAC05449 (supplied singly).
- Damper bodies are machined with two grooves for the lower spring seat circlip. Use the top groove for standard ride height.
- Fit the dust shield to the damper before assembling the spring and (original) top plate.
- Where tapered front springs are used, the smaller diameter is uppermost.

Introduction of Polybush Kit - Esprit Rear Suspension Links

Following on from development work undertaken with Bilstein on replacement spring/damper assemblies for Esprit models, Lotus is also pleased to announce the availability of a Polybush Kit suitable for the rear suspension of most Esprit models.

Lotus and Polybush have jointly undertaken to develop synthetic pivot bushes to replace the original rubber based bushes used in the suspension links of Esprit models. The original bush attributes were first quantified in terms of shore hardness, hysteresis characteristics and radial, axial and torsional stiffness, before attempting to replicate in synthetic material and evaluating on both Lotus' compliance rig, and road and track trials. Computer modelling was then undertaken to help understand synthetic bush hysteresis and establish the design and material required to provide the desired suspension characteristics, including such contradictory elements as high dynamic response and low noise transmission.

After many months of work, a specification was determined for the rear suspension top and bottom transverse links of the Esprit, to replace original bush A082D4084F. The new bushes are supplied only in a set of 8 under part number LOTAC05448, to service all four rear links. These red coloured polyurethane bushes are unique to the Lotus application and should not be confused with red bushes supplied by any other company. The new bush should not be used for any other Lotus application of A082D4084F at this stage.

Lotus and Polybush are continuing development work on service replacement suspension bushes for other Lotus applications, and will release further information as this work is completed.

Details:

Description	Part number	Qty
Polybush Kit	LOTAC05448	1/Car (8 bush set)

Application

Rear suspension top and bottom transverse links of all Esprit models from 1981 S3 to 2004 V8, where A082D4084F is listed (not early Turbo with Compomotive wheels).

Comments

- Should be fitted only in vehicle set of 8 bushes.
- Red coloured polyurethane, unique Lotus specification.
- Benefits to dynamic response, refinement and durability.
- Do not use for other applications of A082D4084F.
- Bush insertion tool T000T0541F may be used to aid assembly.

ASO Trim Services

The trim service is available for all Lotus model's, past and present. Whether your car's interior is in need of restoration, you are choosing options from the trim service catalogue or would like a design of your own to become reality, all options can be considered. For advice or further information regarding the trim service please contact Mel Broome of the Lotus Cars Aftersales team on: +44 (0)1953 608153.

Or alternatively to take advantage of this bespoke trim service or for further details regarding this or any other detail please contact your local authorised Lotus dealer.

Lotus Cars reserves the right to refuse or amend customer orders at time of placing the order with the aftersales department in your authorised dealer. Retrim service assumes original component is sound and able to be retrimmed. Original materials/colours may not be available, alternatives may be offered where available.

The Sale

Lotus Parts - Past and Present

Location: **Lotus Parts Distribution Centre**
Units 1-3 Crowley Way
Avonmouth, Bristol BS11 9YR

Date: **16th - 20th January 2007**

Lotus Aftersales are having a sale of parts, for all models, past and present. We expect interest to be high, so be ready to spring into action and wind your way to Bristol for an opportunity not to be missed. If there's anything left after the event, you'll be able to order from the Aftersales area of our website for delivery to your nearest dealer.

www.lotuscars.co.uk

Lotus Accessories

Level 1 sports exhaust

LED lamps (EURO) inner/outer

Cross-drilled brake disc

Motorsport spring and damper set

Goodridge brakehose kit

Please see our Accessories Catalogue for the full range.

The **Europa S**

Owning a Lotus is all about style, individuality, performance and a dynamic driving experience. The Lotus **Europa S** truly delivers in all these respects.

The Lotus Europa S has all the performance and handling required of a real sportscar, from a company with a long and proud record of understanding what it takes to both design and build real sportscars. We recognise that a significant number of real sportscar-loving drivers are looking for a Lotus more practical on a day-to-day basis. The Lotus Europa S has been designed to meet this brief, but not at the expense of the pure emotion and sheer excitement that driving a Lotus brings... when the weekend finally arrives and 'Grand Touring' is at last 'Item One' on any Lotus Owner's Agenda!

A 2-seater with both 'GT' panache and prestige, the Lotus Europa S will provide customers with a spectacular Lotus sportscar, offering significantly enhanced levels of touring and cruising capability. It provides all of the outrageous fun and exhilaration of driving a true Lotus, whilst also giving the driver the greater practicality associated with a GT or 'Grand Tourer' inspired car.

What price a real sportscar?

The Lotus Elise S - Now available from only £199 a month.

Lotus Elise S - Typical Finance Example

On the road cash price	£23,995.00
Customer deposit	£5,995.00
